6BUIS018 – Information Driven Entrepreneurship and Enterprise

Tutorial 2

This tutorial is based on Lectures 1 & 2. You can find lecture notes on Blackboard.

You need to work in groups of three to five. Please discuss the following questions within your group and write down the agreed answers. You should clarify any questions and discuss your answers with your tutor.

1. E-business (EB) and e-commerce (EC)
    a. What is the difference between e-business and e-commerce? Use the definitions from the lecture notes to explain the difference.
    b. Find two additional definitions of each (e-business, e-commerce). Write these down correctly quoting the sources. Do you consider these sources as reliable? Are these definitions reflecting the same relationship between e-business and e-commerce as the definitions used on the lecture?
    c. Analyse the following figures representing the relationship between e-business (EB) and e-commerce (EC).
        [i] Which figure corresponds to the definitions used during the lecture?
        [ii] Which figure represents the relationship reflected by the definitions you have found?
        [iii] Which figure(s) represent(s) realistic relationships and why?
        [iv] During the module we will use the terms e-business and e-commerce interchangeably. Which figure represents this relationship?

2. Classification of E-business according to forms of operation
    a. Define dotcom and dotcorp businesses.

b. Find two examples each for dotcom and dotcorp e-businesses on the Internet. Visit the websites of these companies and identify features that justify your categorisation.

3. Classification of e-business according to dimensions
   a. What do we mean on the dimensions of commerce?
   b. Define traditional commerce, and pure and partial e-commerce.
   c. Find two examples each for partial and pure electronic commerce on the Internet. Visit the websites of these companies and identify features that justify your categorisation.
   d. “In the future all e-commerce will be pure e-commerce”. Discuss this statement within your group. Write down a summary of your arguments.

4. B2C and B2B e-commerce models
   a. How do you classify e-business by participants?
   b. Define B2C, B2B and B2G e-business.
   c. List and shortly explain the most common B2C e-commerce models.
   d. List and shortly explain the most important B2B e-commerce models.
   e. How can you classify e-marketplaces according to
      [i] industry areas
      [ii] facilitators
      [iii] number of participants?

5. Categorisation of e-commerce websites
   Visit the following sites and try to classify them. Explore features and services that are characteristic for the model.

Address	By participants	Business model	By form of operation	By dimensions
www.barnesandnoble.com				
www.lycos.com				
www.adobe.com				
www.2000freebies.com				
www.sba.gov				
www.richmond.gov.uk/procurement				

www.dell.com				
www.fishingworld.com				
www.paypal.com				
www.tradekey.com/				

6. Categorise your own on-line business idea(s)

   Last week you have been brainstorming and exploring various on-line business ideas that you could select as case-study for your coursework. Use the aspects and categories discussed above and categorise your own e-business ideas. Describe them according to form of operation, dimensions, participants and business models.
